Software - To Replace Adobe

On1 Photo Raw

[ON1 - Photo Editing Software for Mac and PC](#)

This has been amazing software, I do not have enough time to go over it, however this has replaced lightroom and mostly all photoshop I do.

Affinity

[Affinity - Professional Creative Software \(serif.com\)](#)

[Affinity Photo](#) along with On1 has helped me replace Photoshop completely

[Affinity Designer](#) is a cool tool for websites, print and SVGs. This replaced Adobe's InDesign software for me.

[Affinity Publisher](#) has help me replace Adobe's Illustrator

Video Editing

I really wish for a Premiere Pro replacement. I have been using the free software [DaVinci Resolve](#) and it works fine, just wish it was faster I guess.
